This is a protocol I developed after more than 20 years of personally working with Lyme Disease and Long Haul Covid. Along the way I developed “Medical Intuitive” skills, or an ability to “see” inside my body. I also work as a scientist. I have many time “seen” Covid and spike proteins as well as Lyme and Lyme cysts inside myself. This “Intuitive Access” is a process I teach, see my website for more information. www.virmccoyhealth.com

Long Haul Covid is largely triggered by lingering spike proteins from Covid or the Vaccine. These spike proteins do not break down properly in some people because of predispositions and genetics. Its’ like a piece of sand caught inside the cells. Specifically they hang out in non-classical monocytes.

With Lyme disease the bacteria or spirochete can mutate and “encyst” in a dormant state called persistor cells which may or may not flare up months later and create all sorts of related symptoms. The difference is that Lyme is still capable of life, the spike protein is dead or “trash” of the virus.

As with both diseases, there is an auto-immune component, Limbic system disruption, flareup of other bugs including mold, Inflammation, Histamine, Hormone disruption and on and on with both of these, (and these need to be treated as well), here I focus on what I believe is the smoking gun (as science has now validated this). [1](#), [2,3](#), [4](#), [5](#). There is

also a genetic component that may need help with ancestral trauma work.

So in both cases we have a small hard balls (Persistor cell) or chain of amino acids (Spike proteins) that are evading immune systems.

There is a myriad of research and methods for breaking down these “leftovers” including fasting, Nicotine, Enzymes like Nattokinase and Lumbrokinase, NAC, Alinia, Various Acids, Saponins, Detergents (like sodium chloride) and much more. There is also rewiring the immune system to “see” the culprits.

Here is the homeopathic approach that I time and time again and again “saw,” these particular remedies: Graphites, Silacea, and Petroleum. Ive also added options of China and Thuja which seem to have similar properties. Homeopathic Hydrogen also helps to reset the immune system. All these break down hard balls, cysts or toughened skin in their more “gross” or physical applications. On an energetic level this is a protocol that is useful for moving anything that is not SELF out the cells – It is very grounding and connects the body to its core sense of self.

With each remedy I suggest buying different potencies and different brands (this ensures that all shapes and sizes of spike protiens are cleared as you rotate remedies). If you can Buy the 4 different remedies and at least 3 different potencies of remedies from Helios, Hahnemann, Bioron, Ollois and more. For example get 6x from Helios, 6C from Hahnemann, 30C from Boiron and 200C from Ollios etc. Rotate remedies every 5 days. Do protocol for 3 weeks then repeat same protocol another 3 weeks.
