JAN 2024

From the books: *Liberating Yourself From Lyme, Healing Therapies For Long Covid*, both published on Inner Traditions and distributed by Simon and Schuster. 2019. 2021. by Vir McCoy

This is a protocol I developed after more than 20 years of personally working with Lyme Disease and Long Haul Covid. I work as a musician and scientist, so I have a science brain with the soul of an artist. I've studied homeopathy and herbs for over 40 years. Along the way during my illness, I developed "Medical Intuitive" skills, or an ability to "see" inside my body. I would often have a sensory impression or insight about an issue then find the research or science to back it up. This "Intuitive Access" as I call it, is a process I teach, see my website for more information. www.virmccoyhealth.com

I have many time "Seen" Covid and spike proteins as well as Lyme and Lyme cysts (persistor cells) inside body.

Long Haul Covid is largely triggered by lingering spike proteins from Covid or the Vaccine. [1](#), [4](#), These spike proteins do not break down properly in some people because of predispositions and genetics. Its' like a piece of sand caught inside the immune cells. Specifically they hang out in non-classical monocytes. [2](#),[3](#)

With Lyme disease the bacteria or spirochete can mutate and "encyst" in a dormant state called persistor cells which may or may not flare up months later and create all sorts of related symptoms. [5](#). [6](#). The difference is that Lyme is still capable of life, the spike protein is dead or "trash" of the virus (although researchers have confirmed there is an ability of spike proteins to evade the immune system by mutating [7](#)) .

But they are similar in the way they are both hardened very small proteins.

As with both diseases, there is an immune malfunction or failure of the immune system to “see” the spike proteins or cysts correctly (From genetics to predispositions, to epigenetics, to stress etc.) resulting in an auto-immunity , Limbic system disruption, flareup of other bugs including mold and Epstein Barr, Inflammation, Histamine, Hormone disruption and the list of symptoms goes on and on with both of these. [8](#), [9](#)

Here I focus on what I believe are the smoking guns (as science has now validated this).

So in both cases we have a small hard balls (Persistor cell) or chain of amino acids (Spike proteins) that are evading immune systems. It is these we must get out.

There is a myriad of research and methods for breaking down these “leftovers” including fasting, Nicotine and patches, Enzymes like Nattokinase and Lumbrokinase, NAC, Alinia, Various Acids, Saponins, Detergents (like sodium chloride), Ivermectin, Paramomycin, and much more.

There is also the approach rewiring the immune system to “see” the culprits.

Here is the homeopathic approach that I time and time again and again intuited for both spike proteins and Lyme cysts. these particular remedies: Graphites, Silacea, and Petroleum. I’ve also added options of China and Thuja which seem to have similar properties and have been recommended by other homeopaths. Homeopathic I include as Hydrogen also helps one to embody or “ground”.

All these remedies in lower potencies break down hard balls, cysts or toughened skin in their more “gross” or physical applications. On an

energetic level with higher potencies, this is a protocol that is useful for moving anything that is not SELF out the cells – It is very grounding and connects the body to its core sense of self.

With each remedy you will need to buy 6x or 12x, 6C, 30C, and 200C. potencies from at least 2 different brands or companies.

For example get 6x or 12x , 6C , 30C, and 200C from Boiron for the first round of 3 weeks and then the same potencies (6x or 12x, 6C, 30C, 200C) from Hahnemann or Helios for the second round of three weeks.

There are homeopathic companies you can get these remedies and potencies at including Helios, Hahnemann, Bioron, Ollois or a company that sells all the remedies like www.homeopathy.com. You can also mix and match more than 2 companies each week as well but keep the potencies the same.

The goal is by using different companies and potencies we sweep through sizes of cysts and spike proteins as well as stay on top of mutations and resistance by switching brands.

HOMEOPATHICS FOR SPIKE PROTIEN and LYME CYST REMOVAL

Take 2-3 pellets a dose under tongue or in water. Avoid food 15 minutes on either end.

WEEK 1: SILACEA (all from one maker like Hahnemann)

Day 1	6 or 12x	3 times a day
Day 2	6 or 12x	3 times a day
Day 3	6C	2 times a day
Day 4	30C	2 times a day
Day 5	200C	1 time a day
Day 6	Rest	

WEEK 2: GRAPHITES (all from same maker)

Day 7-14 Repeat same as above with same potencies from a different company other than the company you

WEEK 3: PETROLEUM (All from same maker)

Day 15-21 Repeat same as above with same potencies

Week 4: HYDROGEN (From any maker)

DAY 22-25

Hydrogen 200 C for once a day for 3 days

WEEKS 5-9: REPEAT ENTIRE PROTOCOL ABOVE for One Month but this time us a different brand like Helios or Bioron.

Can Also rotate in Homeopathic China, Thuja and others or do a round if these remedies resonate with you or your homeopath suggests. Look for remedies that break down hardened proteins like warts, cysts, toughened skin etc.

A THIRD ROUND OF THE ENTIRE PROTOCOL IS OPTIONAL IF RESULTS ARE NOT ACHIEVED. Pick a 3rd company and repeat the protocol.

GET THOSE BUGGERS OUT! LIBERATE THEM!
